## D4 Extra Fast

Wood Adhesive

**SYNTHETIC RUBBER-BASED, SOLVENT-BORNE CONTACT ADHESIVE**

High-Performance, Technologically Advanced Waterproof Adhesive

### Description:

TAMTEEK D4 ExtraFast – Waterproof Wood Adhesive  
High-performance, fast-grip waterproof adhesive with advanced anti-bubble technology, specially developed for strong & reliable laminate-to-plywood & woodworking bonds.

### Applications

Laminate to plywood, block board, MDF & particle board  
Veneer to plywood  
Wood-to-wood bonding  
Suitable for hardwood & softwood  
Recommended for furniture & general woodworking

### Key Benefits

Instant grab & fast setting  
Anti-bubble formulation for smooth finish  
Excellent initial tack & strong bond strength  
Superior water resistance  
Controls laminate spring-back  
Light bluish shade for easy coverage check  
Solvent-free, non-toxic & non-flammable

### Application Method

Clean, dry & dust-free surfaces  
Lightly roughen if required  
Stir well before use  
Apply thin, uniform coat on both surfaces  
Join immediately and press firmly  
Keep under pressure up to 24 hours for best results

### Packaging

1, 2, 5, 10, 20, 30 & 50 kg

### Storage & Shelf Life

Store in cool, dry place  
Shelf life: 12 months

### Safety

Avoid eye & prolonged skin contact  
Wash with water if contact occurs  
Keep away from children

### Technical Specification

Appearance	Pale Bluish emulsion
Viscosity @ 30°C	155-235 Poise
PH	1.8-3.2
Smell	Characteristic
Flow	Continuous
Spreadability	Smooth & Easy
